 STATE ENGINEER'S OFFICE

1. The source of water is underground
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed 0.02 foot/second not too exceed 8.44AFA
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for stockwatering 500 head of cattle or the equivalent number of sheep
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for stockwater 500 head of cattle or the equivalent number of sheep
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
at a point within the NE1/4NE1/4 of Section 28, T.38N., R.22E., M.D.B.&M., Washoe County, Nevada, from which the NW corner of Section 28, T.38N., R.22E., M.D.B.&M. bears N81°58'14"W a grid distance of 4,921.15', where the bearing and grid distance are NAD-83, zone 2703.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
at a point within the NE1/4SW1/4 of Section 34, T.38N., R.22E., M.D.B.&M., Washoe County, Nevada, from which the NE corner of Section 27, T.38N., R.22E., M.D.B.&M. bears N23°12'43"E a grid distance of 9,631.71', where the bearing and grid distance are NAD-83, zone 2703.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

in the NE1/4NE1/4 of Section 28, T.38N., R.22E., M.D.B.&M., Washoe County, Nevada, all located within a portion of the associated Hog Ranch BLM Grazing Allotment.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

in the SW1/4 of Section 34, T.38N., R.22E., M.D.B.&M., Washoe County, Nevada, all located within a portion of the associated Hog Ranch BLM Grazing Allotment.

9. Proposed use will be from March 1st to November 30th of each year.
Month and Day Month and Day

10. Existing use permitted from March 1st to November 30th of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

A pump will be installed in the existing well and 2" water pipes will be run to stockwater tanks located in the place of use. The existing well described in well log #25784 will be used.

12. Estimated cost of works \$120,000.00

13. Estimated time required to construct works 3 years (see well log 25784)

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

A pump will be installed in the existing well and 2" water pipes will be run to stockwater tanks located in the place of use. The existing well described in well log #25784 will be used.

16. Miscellaneous remarks:

The change in Point of Diversion and Place of Use is made because the well at the existing point is over two miles off of the main road. Also, note that the proposed well is about 100' off of the main road and was the well that was used by the Western Hog Ranch Mine. The existing well was obviously not used as it is capped and buried.
